

DarMakers

WELCOME TO

DAR MAKERS

2021-2022

For Science & Technology

What is DarMakers

DarMakers is a free of charge program, initiated by Dar America Casablanca with the collaboration of LOOP for Science & Technology that aims to help young Moroccans acquire critical digital and making skills for the 21st century.

2021-2022 Monthly themes

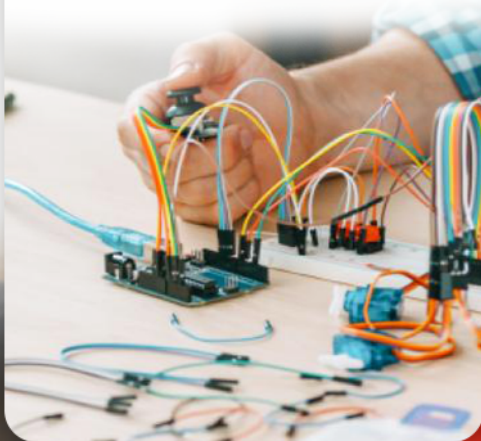

Month	Theme	Activity description
October	Welcome to DarMakerspace!	Introductory activities to the maker space to allow Dar America visitors to explore the space and different tools available
November	Out in the garden	As the spring begins, participants will think about green spaces and what we can make to enhance the spaces in our community
December	Winter crafts	We will put a special focus on winter. Decorations, electronic holiday cards, gifts...
January	Super heroes	What does a superhero look like? what cool gadgets does a super hero own? let's explore and make for superheroes!
February	Around the world	We will take participants on an exploration journey to discover the world, different cultures, different locations while making!
March	Making for diversity and inclusion!	We will challenge participants to make for diversity and inclusion, think about underserved populations and spread messages of positivity through their work
April	Make something!	Joining the international movement of Make something to raise awareness and take action against global warming, participants will recycle to make something during the month.
Mai	A for Art	Do you know any famous artists? art movements? Can you learn about them and make your own art? Let's give art a new spin!
June	Let the summer begin!	What can we make for the summer? fans, cool t-shirts, party decorations... It's time to make something "cool" for the summer
July	Moon Landing	On July, participants will celebrate the moon landing by making creations out of this world while learning about space exploration and the missions to space

How can I benefit from the space?

1

1- Scheduled workshops

Every Tuesday 3 to 5 PM, you will attend a class with a makerspace coordinator. The activities will be on a reservations basis only. Registration info will be shared on our social media pages.

2

2- Supervised making

For the inventors, entrepreneurs and students who want to advance on their own projects, you can book a time slot to work in the makerspace in the suggested hours.

3

3- School field trips

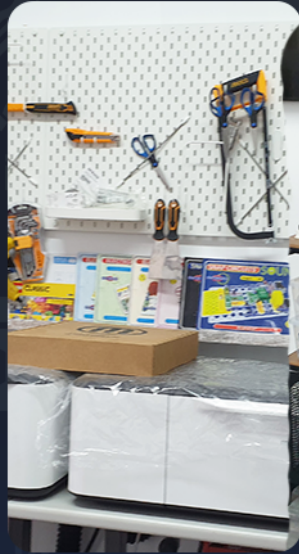

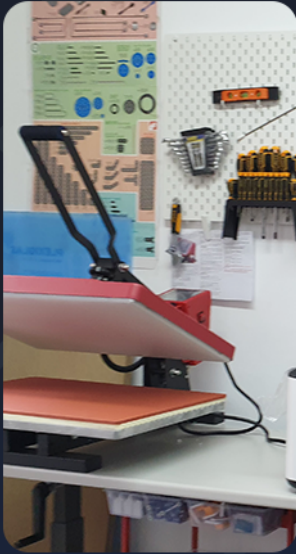

Each month, we will give one teacher the opportunity to bring his students to the Makerspace to conduct making activity with help from our Makerspace coordinator.
